EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the Specification

In page 8 line 19 (section "Brief Description of the Drawings") please replacing the phrase "Figs 1A and 2B" with --Figs 1A and 1B--.

Allowable Subject Matter

3. Claims 1, 3-12, 21-22, 24-25 are allowed.

The following is an examiner's statement of reasons for allowance: Respect to independent claim 10, the reason for allowance was discussed in previous office action. Respect to claims 1, 3-8, and 21, the cited prior arts fail to disclose or suggest that the recess are formed in the silicon-containing oxide by an etching carried out under a condition that a ratio of the gas containing carbon and fluorine and the oxygen gas to a flow rate of the inert gas is smaller than 0.015 in combination with all other limitation in the claims. Respect to claim 9, 11-12, the cited prior arts fail to disclose or suggest a second step of etching the silicon-containing oxide by setting the ratio of the total flow rate of the gas containing carbon and fluorine and the oxygen gas to the flow rate of the inert gas as the second value smaller than the first value, wherein the recesses are formed in the silicon-containing oxide by the first and the second steps of etching. The closest prior art (Sato JP '039) discloses the first etching is performed on an oxide and the second etching step is performed on a nitride layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
